### Job experience

**The Veneto Eye Bank Foundation** (Venezia) January 2001 – present

Head of Clinical Research and Medical Services Manager.

My role as head of clinical research involves the planning and development of pre-clinical and clinical studies related to corneal biology and pathology, corneal graft outcomes, limbal, conjunctival and oral mucosa stem cell culture transplantation, and to rare eye-diseases. I mediate with Italian and overseas Ophthalmologists and the staff of the Medical Directorate on topics related to ocular surface disorders and tissue and cell transplantation.

As Medical Services Manager my responsibility is to oversee the provision of our Advanced Therapy products organizing and tracking the process from patient's diagnosis to the post transplantation follow-up, coordinating all the functions involved (from the laboratory to administrative aspects) and assuring assistance during all phases, which also sometimes requires my presence in the operating theatre during the intervention.

My responsibility is also the examination of scientific literature and market, internal and external reporting, scientific support to the organization and its customers, meeting presentations, contacts with key opinion leaders, interaction with regulatory authorities (AIFA, EMA) for issues related to the products and the marketing authorisation, connection with local and international committees and societies.

**Glaxo Wellcome s.p.a.** (Verona) October 1994–December 2000

Clinical Researcher in Respiratory Medicine department. Medical Project leader for smoking cessation therapy.

The position involves the monitoring and the coordination of a project team involved in national and international clinical trials (phase II – III – IV) in GCP and observational studies in the field of interest (asthma, rhinitis, COPD, Smoking Cessation); responsibility for the setting up of the clinical research plan and for the registration and promotion of new drugs; protocol and CRF preparation, clinical reporting, medical writing, conference communication, interaction with opinion leaders.

**Glaxo s.p.a.** (Verona) January 1992-September 1994

Information Scientist at the Medical Department with tasks in respiratory, cardiovascular and gastroenterology areas; monitoring, analysis and dissemination of the literature of interest; strengths/weaknesses evaluation; training of sales representatives; medical brochure and scientific booklet writing; conference communication.

**AB Analitica s.r.l.** (Padova)

1991

Sales representative in a retail company of medical devices and diagnostic supply.

**University of Padova, Department of Biological Chemistry**

1989-1990

Research Fellow in the laboratory of the Prof. Giovanna Carignani with the participation in the analysis of the mutant strains of the yeast *Saccharomyces cerevisiae* and the sequencing of the mitochondrial genome, to study the regulation of gene transcription in yeast and to characterize some of the genes involved in yeast respiration.

Author of more than 60 abstracts, full papers and conference communications related to ocular surface disease, human cell culture technology, respiratory medicine, epidemiology and health-related quality of life.
