PROFILE

Precision, determination and organization are the characteristics that best contraddistinguish me. At work I like to give my personal contribution but I positively accept critical comments: I am willing to constantly improve myself. Thanks to the constant participation in voluntary activities I learned the importance of combining individual work with team work in order to find the best solution and in the shortest time possible. I am a dynamic person and I have a lot of interest as nature and animals. During my studies I helped students of different ages in their individual homework; additionally, I attended a first aid course. I am an enthusiastic and highly motivated person: I like to have new challenges to overcome.

Driving licence: B

In compliance with the Italian legislative Decree no. 196 dated 30/06/2003, I hereby authorize you to use and process my personal details contained in this document.

Paola Gallon

PAOLA GALLON

My studies in medicinal chemistry, pharmacology and organic synthesis allowed me to develop competences on design, production, formulation and control of drugs.
My work experience are giving me the opportunity to manage clinical activities according to GCP, Ethical and Regulatory requirements.

WORK EXPERIENCE

February 2018 - present

Fondazione Banca degli Occhi del Veneto Onlus
